AKB04CAZ | Targus Slim Internet Media USB Keyboard

The Slim Internet Media USB Keyboard has all the functionality of a standard keyboard with the addition of built-in Internet and Multimedia hot keys. We have applied the latest keycap technology to reduce the key travel distance to less than 50% of the traditional keyboards. The slim keyboard is comfortable and reduces tension to the wrists and arms, as well as finger fatigue when compared to using a standard keyboard.

The low travel distance reduces finger fatigue compared to traditional travel distance keyboards

The slim profile reduces tension to the wrists and arms created by the height of traditional keyboards

Provides seamless desktop replacement for laptop PC users

The slim keyboard takes up little space on the desktop and is aesthetically a better match to LCD monitors and laptop PCs

Media hot keys*: Play/Pause, Previous Track, Next Track, Stop

Mute key*

Internet hot keys*: Backward, Forward, Stop, Refresh, Internet Browser, E-mail, Search, My Favorite, Media Player, Calculator, My Computer

Volume dial**: Volume Up, Volume Down

*Works on XP without drivers, other operating systems may require drivers.
**Requires drivers
